

If the NAB's product really is better, the ratings will show it. Let C O M P E T I T I O N decide.

You've already allowed mega media corporations merge like it's a track meet which has stifled the flow of information (look at the news they're showing on Univision, I don't understand Spanish, but I don't see anything like it on ABC, CBS, NBC, FOX, CNN, CNN HN or MSNBC despite being the largest Spanish network in this country they don't have news resources approaching the seven mentioned above.

Ever notice the news of the big networks are pretty much the same, there isn't any diversity or independent thought and now you want to limit who provides traffic and weather reports?????

For shame!!!!!!!!!!
